## Professional Summary

Full-Stack Software Engineer with **2.5+ years of experience** developing scalable mobile and web systems. Expertise in **React Native, React.js, Java, Spring Boot** and cloud-ready architectures. Delivered production apps serving **10K+ users**, improved performance by **40%**, and built robust API-driven platforms. Strong in system design, SQL/NoSQL databases, CI/CD, and end-to-end product development in agile environments.

## Technical Skills

**Languages:** Java, JavaScript (ES6+), TypeScript, Python, SQL  
**Frontend & Mobile:** React Native, React.js, Redux, HTML5, CSS3, Tailwind, Bootstrap  
**Backend:** Spring Boot, Node.js, Express.js, REST APIs, Microservices  
**Databases & Caching:** MySQL, PostgreSQL, MongoDB, Redis, Ehcache, Oracle  
**Tools & DevOps:** Git, Docker, AWS (EC2, S3, Lambda), Firebase, Postman, CI/CD, JIRA

## Professional Experience

- Software Developer

*Apeejay Education Society*

Feb 2024 – Present

  - Developed and scaled the **Apeejay Parent App** (React Native + Firebase) to **15K+ active users** with a 4.5/5 rating, improving load performance by **30%**.
  - Built a fault-tolerant FCM system delivering **50K+ notifications/month** with 99.9% delivery stability.
  - Engineered the **CRC DR medical reporting app** used by 100+ doctors, increasing workflow efficiency by **35%**.
  - Created a **React.js + RBAC admin dashboard** integrated with Node Js APIs, reducing manual reporting by **40%**.
- Associate Software Developer (Intern)

*Bharti Airtel Limited*

Feb 2023 – Sep 2023

  - Built 4+ real-time analytics dashboards with **React.js**, improving internal decision-making for 10+ teams.
  - Improved UI performance by **50%** using optimized state management, code-splitting, and lazy loading.
  - Automated CSV ingestion pipelines, reducing manual data preparation time by **60%**.

## Projects

- Cadence School ERP [App Store](#) — [Google Play](#)

*React Native CLI*

  - Built a full mobile ERP including fees, academics, attendance, and communication modules.
  - Integrated secure payments and cloud storage, improving school admin efficiency by **30%**.
- Apeejay Parent App [App Store](#) — [Google Play](#)

*React Native, Firebase*

  - Built core modules for attendance, fees, leave management, and alerts for **10K+ parents**.
  - Added biometric login and automated fee alerts, increasing engagement by **65%**.
- CRC-WB Doctor App [App Store](#) — [Google Play](#)

*React Native, Analytics*

  - Developed a reporting tool for medical representatives to manage visits and appointments.
  - Added analytics dashboards to visualize doctor activity and engagement trends.
- Smart Workflow Automation [Live Link](#)

*React.js, MySQL, JWT*

  - Created a workflow automation platform with JWT-based auth and multi-level escalations.
  - Accelerated approval cycles by **40%** across multiple business units.

## Education

- Gurugram University

*B.Tech in Computer Science (AI Specialization)*

2019 – 2023

  - Coursework:** Data Structures, Algorithms, OOP, DBMS, OS, Web Technologies.

## Certifications & Achievements

- Infosys Certified Full Stack Developer (MERN).**
- Recognized at Apeejay for improving backend scalability and system performance.
